3. The following is an examiner's statement of reasons for allowance:

Applicant's inventive concept is novel and innovative in the sense that it displays simultaneously a first icon and a first combination as a pair and displays simultaneously a second icon and a second combination as a second pair in case where the orders received and the orders places are existence. The closet prior art, Jebens (U.S. PG Pub. 2001/0002204) teach data management and publishing, and, more particularly, to a data management and order

delivery system for providing storage of data such as digital images and for routing and delivering orders incorporating a selected subset of the stored data to a publishing facility or the like. Jebens fail to teach an inventive concept that displays simultaneously a first icon and a first combination as a pair and displays simultaneously a second icon and a second combination as a second pair in case where the orders received and the orders places are existence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
